I have just opened at my store, Waring Block, what is probably the most complete line of light flannel overshirts ever offered in Honolulu. Prices range from 50 cents to \$2.00. L. D. Timmons.\*

## FITS CURED

(From U. S. Journal of Medicine.)  
Prof. W. H. Pecke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P.O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PECKE, P. D., 4 Cedar St., New York.

## IT IS STILL SPREADING.

MORE STRINGENT MEASURES LIKE-  
LY TO BE ADOPTED.

Possibility of all Traffic and Business  
Being Stopped for a Week  
or More.

### THE VERY LATEST.

3 p. m.—The very latest report at the office of the Board of Health shows 48 cases, 36 deaths, 11 in the hospital and 1 cured.

Kalaukani, taken from near the Mormon church, died at 1:45 p.m.

John Kapahi, a native in the employ of the Electric Light Works, was taken sick on one of the company's wagons about 1 p. m. He ordered the driver to take him to his home at Moanalua, which was done. The man was vomiting all the way there and complained of cramps in his stomach. When the driver returned and reported to Superintendent Hoffman, he was sent with wagon and everything it contained to the Board of Health office and thoroughly disinfected by Mr. Reynolds and assistants.

President Smith ordered Dr. Wayson to make all haste to Moanalua and investigate the case. Superintendent Hoffman is much perturbed over the case, but reported it as promptly as possible. The Board will take measures to find out how the man got to Moanalua without a permit.

There is absolutely no truth in the various reports about new cases on the Bennington.

The office of the Board of Health has been the scene of great activity this morning, caused by the increased number of cases reported and the evident necessity of adopting more stringent precautions. Attorney-General Smith has been in consultation with members of the Board and leading citizens all the morning, and the conclusion has been arrived at that stronger precautions must yet be adopted to prevent the further spread of the disease. He will recommend to the Board this afternoon the raising of a volunteer corps of citizens, irrespective of politics or any organization to which they may belong, for the purpose of making a house to house visitation throughout the city two or three times daily, the absolute cessation of all business and traffic and other measures of an extreme kind. It is expected the Board will sustain him and that the proposed embargo will go into effect on Saturday night or Sunday morning. In the meantime citizens will do well to govern themselves accordingly.

This will entail a great hardship on natives and poor people generally, but arrangements will be made to feed every one who is in want with good plain, well-cooked and wholesome food under medical direction.

Senator Waterhouse has been installed in the office formerly occupied by the executive officer of the Board and has charge of the issuing of permits to Chinese and natives regarding the shipment of freight and outside travel. His hands are full in standing off Chinese who come with all kinds of excuses. During the few minutes the BULLETIN reporter was sitting in the office one Chinaman came in for a permit to go to Ewa to gather eggs, another offered the Senator half a dollar for a permit to go to Maunaloa and a third wanted to go out of town to see his family. The last one was

known to Mr. Waterhouse as living up Nuuanu valley and not having a family.

A. W. Carter has charge of the issuing of permits in the District of Honolulu.

Cases reported since yesterday's issue of the BULLETIN are:

George Jackson, age 30, male, part Hawaiian and part negro. Reported at 9:30 p. m., taken sick at 8 a. m. Residence, Kapalama.

Kalama, age 35, male, Hawaiian. Reported at 5:10 a. m., taken sick at 1 a. m., residence Kaunakapili; dead when reported.

Kalama, age 26, female Hawaiian, residence Kapalama. Reported at 6:30 a. m., taken sick yesterday morning.

Leukia, female Hawaiian, age 5 years, reported at 6:30 a. m. Residence Kapalama, taken sick this morning.

Likabeka, female Hawaiian, age 4. Reported at 6:30 a. m., taken sick this morning. Residence Kapalama.

Elena, female Hawaiian, age 5. Reported at 6:30 a. m., taken sick this morning. Residence Kapalama.

Lahapa, aged 63, female Hawaiian, reported at 8 a. m., taken sick at 6 a. m. Residence Lunalilo Home.

Haoka, age 65, female Hawaiian, reported at 8 a. m., taken sick at 6 a. m. Residence Lunalilo Home.

### TIMELY AND NOBLE RELIEF.

Free Eating House for Indigent and Distressed Hawaiians.

A movement to relieve the distresses of poor Hawaiians, which only took shape yesterday, will be put into practical operation tomorrow morning. Workmen are busily engaged today in fitting up the brick building on Bethel street, formerly used for the large restaurant of Jun Hee, as a free eating house for poor natives.

Allen Herbert has direction of the work and is also making a successful canvass for food supplies.

E. B. Thomas is building a kitchen in the rear and promises to have it completed this evening.

There are two large eating apartments in the building. Large iron tanks are placed in the rear, into which water will be conducted from the mains, and the water will be boiled by a steam pipe leading from the boiler of the merry-go-round engine. Nourishing meat stews and steam-made poi will be served at regular meal hours, and hot tea at all hours. People will be given boiled water to take to their homes in bottles. Mrs. C. Arnold will be stewardess over an efficient staff of cooks and waiters.

Mrs. F. W. Macfarlane is treasurer of the fund. About \$5000 was subscribed to the fund for providing food and clothing for the distressed Hawaiians by leading business houses today. The Metropolitan Meat Co. will furnish all the meat for stews. J. I. Dowsett contributes six head of cattle. H. May and Co. and Lewis & Co. promise potatoes, groceries, etc.

For rowing or cycling an elegant line of sweaters "cheap" assorted colors. McInerney.

The famous E. & W. (Earl & Wilson) Collars and Cuffs in latest shapes at Tracy's.

Persons desirous of volunteering to assist the Board of Health in guarding the valley will please report at the office of the Board between 7 and 9 this evening.

## RELIEF FOR HAWAIIANS.

VARIOUS PROJECTS FOR RELIEVING THE PREVAILING DISTRESS.

There Are Hundreds of Natives Who Subsist on One Meal a Day—Prompt Aid Needed.

The BULLETIN has been investigating the distress existing among the natives and finds that it is even worse than was supposed.

The stoppage of inter-island traffic has thrown about three hundred laborers out of employment who have been earning from \$4 to \$6 per week. The money thus obtained went to buy poi and fish and other simple and necessary food for themselves and their families. Most of these laborers virtually live from hand to mouth, and make little or no provision for the future. Many of them are willing to work at anything, but can find nothing to do. One reason for this is Japanese competition. There are any number of the latter walking the streets today and offering themselves for any odd jobs for fifty cents per day and feed themselves. This fact cannot be disputed, nor can the other fact that an Hawaiian cannot support a family on fifty cents per day, even if they eat nothing but fish and poi.

In the district below Punch-bowl street and the Mormon church there is much distress and something must be done at once to relieve it. Many families there have been living on one meal a day for the past week and some of them on less. The few white families in the vicinity have done what they could to relieve the distress, but they cannot be expected to do all. Most of these people have been getting their drinking water from the stream which flows through the taro patches in that vicinity, and in spite of the order to discontinue doing so, it is still done. The natives say they must have water to drink and the government has provided no other. They are too poor to pay water rates and are afraid to use out of the pipes of the whites, which have been freely offered them for fear of getting all parties into trouble. Even when almost forced to take water from the city hydrants they have only taken enough to drink, and have gone to the stream for water to mix up the poi with, and this solely because of their fear of getting into trouble. This was done yesterday, and when the matter was reported to the authorities a special pipe was laid which is now free to all, but it would have been better if it had been put in at once.

In the district lying between Kakaako and Wai-kiki there is much distress, most of the natives having been dependent on the sea for their daily supply of fish and their scant earnings are only sufficient to procure poi. The immediate distress in this vicinity has been relieved by Mr. Boyd and others, but it is increasing daily.

As far as the reporter could learn this state of affairs exists throughout the city and requires immediate attention.

The August number of the Foresters' Advocate, San Francisco, has on its front page a fine portrait of Donald McLennan, M. D., Subsidiary High Court Trustee, Honolulu. There is a complimentary biographical sketch of the genial doctor in the same paper.
